WEAR A MASK: 

LEVEL OF PRECAUTION NEEDED: **VERY HIGH**

HIGH

LOW

This document is based upon recent CDC recommendations as of 6/15/2021. Although Travel Again produced this guide independently, each travel activity rating is correlated to at least one specific CDC guideline. We hope this will help travelers evaluate the level of COVID-related precaution they must take when traveling. *Each traveler should determine their own individual level of risk before making travel choices.*

Travel Again's efforts to advance its mission of uniting the travel industry and driving both travel and economic recovery are made possible by our cornerstone funding partners including:
